Comcast is giving away two months of free Internet to low income households. Link [Here](#)

The Program in Biomedical Sciences (PIBS) is once again hosting our annual PIBS Preview visit on **October 7-9, 2020**. PIBS Preview is a unique opportunity to provide your students with a first-hand look at graduate training at the University of Michigan, one of the largest and most vibrant research communities in the country.

We hope you will help spread the word and encourage your top students to apply! Please share the details below, and feel free to direct your students to our [website](#) for more information including how to open an online application.

The [application](#) is now open! The deadline to submit all materials is **July 31, 2020**.

Here is great opportunity to get in touch with recruiters at Linked-In and help out students with their profiles. RVSP by Tuesday April 21 @ 4PM

2020 Summer Institutes

July 13-31, University of Washington, Seattle

We are excited to announce that the 2020 Summer Institutes will transition to an online event!

After consulting with instructors and weighing available options, we are confident that robust versions of many modules can be offered online. Summer Institutes directors, instructors and staff are working hard to determine the most effective format for each module's content.

In other good news, both the Summer Institute in Statistical Genetics (SISG) and the Summer Institute in Statistics and Modeling in Infections Diseases (SISMID) expect to offer scholarships.

Details will be announced in the coming weeks along with final module descriptions, dates, formats, and fees. We hope to open registration and scholarship applications on May 4 but will keep you posted on our progress.

We appreciate your patience and support as we finalize details. If you have questions in the meantime, please email uwbiost@uw.edu.
