Subject: Mental Health and Wellness: A Discussion with STEM Researchers

You are invited to a Zoom webinar.

When: Jul 29, 2020 03:00 PM Pacific Time (US and Canada)

**Topic: Mental Health and Wellness: An Open Conversation
with STEM Researchers**

Register in advance for this webinar:

https://sfsu.zoom.us/webinar/register/WN_zNxGfOBySvatE-rJFUq0Uw

Meeting ID: 953 4075 9749

Password: 507825

SIP: 95340759749@zoomcrc.com

Password: 507825

After registering, you will receive a confirmation email containing information about joining the webinar.

Wednesday, July 22, 2020

Dear Students,

This Friday, July 24th from 3-5pm Associated student's Social Justice & Equity committee (SJEC) will be hosting an open Forum for Black students. The first hour of the conversation (3-4pm) will be dedicated for Black students to come and share experiences and concerns so SJEC can get a better understanding of what issues we as student leaders can help advocate for this upcoming year. The second hour (4-5pm) will have three administrations present and the space will be an opportunity for Students to come and express their concerns while administrators are present. The whole meeting will be centered around University accountability and what structural changes should be advocated for by AS and ways Administrators can do better for Black student needs. This space will be facilitated by Tyler Lewis, Ja'corey Bowens, Lee Lockhart, and Damion Sqaure.

The SJEC team has create a google form for Black Students which includes questions we hope to discuss in the forum and questions we will be referring to throughout the year. You do not need to answer every question, any feedback even if minimal is helpful. Feel free to share the form with relevant outlets.

Please note: This space is dedicated for Black students and will be prioritized as such. The forum will not be recorded for privacy and respect to those who wish to come and share experiences.

7/21/20

Hi,

Join us for the upcoming Holistic Health Summer Series presentation, **Reclaiming and Nurturing the Power of Play**, on Friday, July 24th from 12-1 pm by Erik Rosegard, PhD, Chair of the Department of Recreation, Parks, Tourism, and Holistic Health. We would appreciate if you could share the information with your friends, students and colleagues and invite them to attend. The information is below as well as in the attached flyer.

Thank you for getting the word out and stay safe this summer!

Date: Friday, July 24, 2020 Time: 12:00-13:00 pm

Zoom: <https://sfsu.zoom.us/j/893500173?pwd=RnVyczNoM2dEenFHk5KRndrbUZrZz09>

Password: 923108; Meeting ID: 893 500 173; Dial in: +1 669 900 6833 US (San Jose)

Reclaiming and Nurturing the Power of Play

Erik Rosegard, PhD

This session will explore the FUNdamentals of play and how adults can reclaim and nurture play in both their personal and professional lives.

Erik Peper, Ph.D.
Professor
Institute for Holistic Health Studies
Department of Recreation, Parks, Tourism and Holistic Health
San Francisco State University

7/23/20

Dear SF State,

I wanted to ask for your help in sharing resources with summer research students who may be considering graduate school.

As you probably already know, our website offers a searchable listing of graduate funding opportunities including NSF, NASA, NOAA, EPA, and many other fully funded portable fellowships and fully funded graduate programs in the STEM disciplines.

Students can join our [Mailing List](#) to receive notifications and reminders of upcoming program deadlines tailored to their level of study – now is a great time to sign up, so that students will receive reminders about early fall application deadlines.

As always, we thank you for your support and help in getting the word out! Thank you!

Liv

Subject: UMich Biophysics Graduate Preview Program - Still Accepting Applications!
To: Sara Grosky <saramin@umich.edu>

Greetings,

I hope this finds you well. I would appreciate you forwarding the following announcement to your undergraduate students. Any questions can be directed to me. Thank you!! ~ Sara

**2020 University of Michigan Biophysics "Remote" PhD Preview
August 25-26, 2020**

We are currently accepting applications for our annual PhD Preview, which will be held remotely this year! We are seeking motivated prospective graduate students to participate in an online immersive experience of the Biophysics Program at the University of Michigan. Highly qualified prospective graduate students are encouraged to apply. Preference will be given to students

from low-income homes, students who are first-generation college students or students whose backgrounds are underrepresented in Academia.

All applicants must intend to apply for admission to the Biophysics doctoral program for the 2021-22 academic year.

Throughout the Preview students will have the opportunity to network with important members of the Biophysics research community here at Michigan and get a glimpse at what life is like as a graduate student and member of a thriving scientific laboratory.

Biophysics Preview participants will attend the annual Biophysics All-Team Retreat on Wednesday, August 26.

[Click here for more information and the online application!](#)

Applications are due August 7, 2020 (applications are accepted on a rolling basis).

The Biophysics Program at the University of Michigan is one of very few standalone biophysics programs in the US, created to foster multidisciplinary research and provide interdisciplinary undergraduate and graduate education. Biophysics at University of Michigan has a long tradition of interdisciplinary research, which positions us ideally to provide this kind of experience to undergraduate students from around the country. Since Biophysics is extremely intellectually diverse, our aim is not only to provide research experience in a subfield of the discipline, but to also provide an overview of state-of-the-art research in the field, and the experimental methods and techniques that are commonly used.

ASCB Virtual 2020 Meeting - Abstract deadline 7/30/20 or 9/2/20

<https://www.ascb.org/cellbiovirtual2020/>

[Cell Bio Virtual 2020 | An Online ASCB|EMBO Meeting](#)

Cell Bio 2020 Virtual-an Online ASCB|EMBO Meeting offers every attendee the opportunity to create their own content and topics to present at the meeting. This is a meeting designed by you.. Click Here to fill out a survey with your feedback by July 22.

www.ascb.org

All abstract submission fees are nonrefundable. All abstract submitters must acknowledge they understand the talks and posters will be presented virtually and will be available to registered attendees on demand for up to 30 days following the meeting.

All abstract deadlines are at 9:00 pm EDT on the dates listed below:

- **Deadline 1: Thursday, July 30** – Regular Abstract Submission (only deadline with talk option)
Subgroup Talk, Minisymposium Talk, and/or Poster Consideration
 -
 - \$80 ASCB Member, EMBO Members and affiliates
 -
 - \$110 nonmember
- **Deadline 2: Wednesday, September 2** – Regular Abstract Submission
Poster consideration only
 - \$80 ASCB Member, EMBO Members and affiliates
 - \$110 nonmember
- **Deadline 3: Wednesday, October 7** – Regular Abstract Submission
Poster consideration only- higher fee
 - \$105 ASCB Member, EMBO Members and affiliates
 - \$135 nonmember
-

***If you submit by the July 30 deadline, you can choose up to four presentation options. If you select both talk and poster options, you will need to decide if you would like to give a poster if you are selected for a talk. The options are:**

- - **Subgroup Talk:** Your abstract will be considered for a talk in a Member-Organized Special Interest Subgroup.
 - **Minisymposium Talk:** Your abstract will be considered for a talk in a Minisymposium.
 - **Poster:** Your abstract will be considered for a poster presentation. If you select this option only, your abstract will **not** be reviewed for a talk.

All abstracts submitted are accepted for a poster presentation if that option is selected unless they do not meet the minimum submission standards as outlined in the guidelines. Submitting your abstract as talk only will *not* increase your chances of being selected for a talk.

Abstract submission is separate from meeting registration. Please register for the meeting at the conclusion of your abstract submission.
